

Homework 7

100 Points

Classes

The last homework assignment consists of 3 programs:

- A. Project 4, page 885: Number Class // old book: page 863
- B. Project 7, page 965: Person Data and Customer Classes // old book: page 941
- C. Change Program 15.6 to read data from file and display results to the screen

Extra Credit: Rewrite Homework 6 (Linked List) using Linked List Template (see LinkedList.h – version 2)

Grading:

- A. 40Points
- B. 30Points
- C. 30Points

Run the programs as required and save the output at the end of the main source file as a comment. Compress the source files, header file, input and output files (if any), and upload the compressed file: [22B_LastName_FirstName_H7.zip](#)
